

FedConnect® Release Notes

Version 2.2

We are pleased to announce the release of **FedConnect 2.2**, which includes security updates related to FISMA and FedRAMP.

The following security updates are included in FedConnect 2.2:

- Users are automatically deactivated in FedConnect after 90 days of inactivity;
- Audit logs are now available to view security related changes;
- Users are limited to one password change in a 24 hour period;
- Passwords now have a minimum length of eight(8) characters;
- Passwords must be changed every sixty(60) days;
- A password cannot be reused until 24 unique passwords have been generated; and
- Password complexity is now enforced by requiring at least one of each of the following:
 - Special character,
 - Uppercase letter,
 - Lowercase letter,
 - Number.

Note, all users will be prompted to reset their passwords upon initial login following the FedConnect 2.2 upgrade. The new password must comply with the above security requirements.
